SOLVING FEDERAL DATA & TECHNOLOGY CHALLENGES

WHAT CAN RESPEC DO FOR YOU?

As experts in rapidly evolving technologies in the complex federal environment, RESPEC's dynamic and agile IT professionals create confidence with proven technology solutions, products, and staffing services for public customers. We bridge technology staffing gaps and design best-fit technology strategies for government customer needs to ensure dramatic improvements. We are technology experts, and we thrive on taking federal agencies to the next level.

At RESPEC, we extend our knowledge and expertise within the major areas of IT, which are highlighted below.

PROVEN PAST PERFORMANCE RESULTING IN LONG TERM RELATIONSHIPS

- // **Health and Human Services – Indian Health Service (20 years)**
Data analysis, database security, systems engineering, cloud migration, software development & testing, helpdesk services
- // **Department of Energy – Sandia National Laboratories (30 years)**
Application development, systems and software maintenance, Q&A testing, end-user support
- // **Department of the Interior – Bureau of Land Management (15 years)**
Cloud migration, cloud architecture, data analysis, IT business analysis, data security

Contact us for more information on these projects

DATA SCIENCE/MANAGEMENT

- // Data Cleansing & Migration
- // Master Data Management (MDM)
- // Data Quality/De-duplication
- // Data Analytics/Business Intelligence
- // API and ETL integrations

TOP LEVEL TALENT

- // IT Staff on Demand
- // IT Technical Professionals for On-Site/Remote Support
- // As-Needed Supplemental Support
- // IT Professional Resources at Competitive Prices

SOFTWARE ENGINEERING

- // Application & Database Development and Implementation
- // Data Warehousing & Mining
- // COTS Database Applications
- // Transfer Solutions
- // Database Porting & Migration

GEOSPATIAL INFORMATION SYSTEMS

- // ESRI Software Deployment & Development
- // Open-Source GIS Development
- // Custom GIS Applications
- // GIS Services & Support
- // Geospatial Products & Analysis

SYSTEM INTEGRATION

- // Systems Integration & Data Migration
- // New Systems Architecture & Design
- // New Systems Development & Implementation
- // Agile Training & Coaching

BUSINESS ANALYSIS

- // Needs Assessments
- // Requirements Definition
- // Business Process Re-engineering
- // Improve Productivity, Work Cycle

SYSTEMS/CLOUD/NETWORK

- // Infrastructure Assessments
- // Cloud migrations
- // Application Upgrade Planning
- // Database & System Migration
- // Server and storage management

PROJECT/PROGRAM/IV&V

- // Agile/Scrum and PMI approaches
- // Risk and Quality assessments
- // Accuracy Verifications
- // Project Validations
- // Project Enhancements

INFORMATION ASSURANCE AND SECURITY

- // Cyber Security Assessment
- // Program Compliance
- // Governance
- // Dashboard Reporting
