About Us

For over 20+ years, Management Science and Innovation (MSI) is a privately owned, federal consultancy founded on the principles of innovative thinking, data-driven design, and deep knowledge of management sciences. MSI specializes in executive advisory, innovative technology, and rapid optimization solutions backed by actionable data insights.

With a multidisciplinary approach, MSI provides comprehensive solutions at the intersection of strategy, transformation, technology, innovation, human performance, and change management.

Offering a comprehensive suite of services designed to drive organizational excellence, our consulting services focus on developing strategies that effectively communicate priorities and performance commitments. Combined with our expertise in software development and design with a focus on information security, cloud management, adoption, and migration, MSI offers a wide range of services tailored to meet the evolving needs of organizations.

Our Clients

FedCiv | Defense | Health | Intelligence | Private

MSI adheres to the highest standards of integrity and accountability. Our commitment to excellence extends to every aspect of our work, from the development of innovative solutions to the delivery of exceptional service and support. With MSI as your trusted partner, you can confidently navigate the complexities of today's business landscape and achieve your strategic objectives with confidence.

By the Numbers
