

Stacked for Scale

Smoothstack Federal offers three tiers of solutions for our clients in support of mission problems, leveraging our breadth and depth of enabling technologies and services.

Tier 1
Consulting Solutions
(CS)

**Experienced Consultants
Accelerating Outcomes**

Our clients and Federal Systems Integrator partners have direct access to our Top Talent who are key leaders and contributors to our Centers of Excellence and Innovation Hub. Our consulting leaders collectively bring over 100 years of federal experience, having successfully led major transformational programs and provided strategic consulting for over 25 departments and agencies across the Federal Civil and Defense Sectors.

Tier 2
Staff Placement Solutions
(SPS)

Customized Technical Cohorts at Scale

Since 2018, we have hired, trained, and deployed over 700 high quality resources using our proprietary Six-Stack™ process and Mirrored Environment Immersion (MEI™) training approach. We supported more than 100 digital transformation projects across 10+ federal government agencies, with 99%+ of our resources ready on day one, meeting technical, geographic location and security clearance requirements.

Tier 3
Training Solutions
(TS)

Innovative Upskilling For Your Workforce

We provide tailored upskilling programs for our clients that go beyond technology certifications. Our premium training services aim to develop a tailored curriculum to meet each client's exact needs, combining our differentiated proprietary training methods to produce top talent within 10-12 weeks, resulting in accolades from clients citing our staff's accelerated productivity exceeding their talent with 2-3 years more experience.

Technical Capabilities

- Data & AI
- Application Development
