## Our Impact

### CLOUD & INFRASTRUCTURE

**Site Reliability Engineers (SREs) to a global social media firm,** enhancing project development pipeline monitoring on tier commercial cloud. We transition from traditional tech development to live operations, contributing to the commercial cloud build program. Our expertise in SRE, DevOps, CI/CD, Software Engineering, Data Engineering/Analytics, and Machine Learning/AI ensures successful client cloud platform build-out.

### DATA MANAGEMENT

**Complex clinical research data systems for a federal healthcare client,** analyzing Laboratory Information Management Systems (LIMS) and implementing electronic Trial Master File (eTMF) solutions. Expertise includes compliance, data integration, and technical support for clinical systems.

### LOW CODE / NO CODE PLATFORMS

**Streamlines defense agency processes with Salesforce** integration, enhancing security. We digitize sustained change processes, automating order creation and travel cost estimation. Our compliance focus ensures NARA records management adherence, optimizing efficiency and mitigating risks. Our contributions optimize the SCP Automation program, improving traveler experiences and facilitating timely claim settlements.

### CYBERSECURITY & ENGINEERING

**Crucial technical expertise to a leading financial institution's mission-critical programs.** Our team provides ElasticSearch, Full Stack Cloud, and Cloud Native Developers, along with Cybersecurity and Network Engineers, bolstering identity and access management capabilities. All team members hold Secret clearance or higher, adhering to client security standards. Our collaboration strengthens the institution's ability to deter criminal activity, safeguard financial systems, and advance U.S. national security goals.

### PROGRAM MANAGEMENT OPERATIONS (PMO)

**Standup of a new startup within the federal government** which is focused on pioneering healthcare breakthroughs. Blu Omega's role included establishing supporting the establishment of the comptroller office, managing budgets, financial services, and ensuring compliance. Our team tracks technical and financial milestones, prepares billion-dollar budgets, and forecasts spending. We support the presentation of budget submissions to key stakeholders, including the DHHS and OMB.

## Our Customers

- Air Force
- ARPA-H (Advanced Research Projects Agency for Health)
- DoC (Department of Commerce)
- CDC (Centers for Disease Control and Prevention)
- CMS (Centers for Medicare & Medicaid Services)
