

# Your Success is Our Mission

*When it comes to the US Department of Defense*

TG Federal is an IT subcontractor in the Federal marketplace with more than 20 years of experience providing critical specialized IT talent to Government Contracts across Civilian, Federal Health, SLED, and DoD sectors.

## Key Differentiators

### Specialized Delivery

**Focused within the fields of Cyber, Cloud, App Dev, and Data**

By engaging with clients to create a scope of work, our Subject Matter Experts on staff ensure quality candidates are presented.

### Incumbent Capture Services

**Offering Incumbent Capture Services, Key Personnel, Scalability**

TG Federal partners with system integrators to identify key personnel and critical incumbents in advance of the bid.

### Go-To-Market Strategy

**Works closely with our Prime partners on targeted pursuits**

Our goal is to add value by targeting key personnel, providing market intel, identifying competitors, and supplying proposal support.

### Turn-Key Onboarding

**Able to onboard resources within 24 hours and deploy them immediately**

This allows our Prime partners the opportunity to retain their billable contract staff while they complete their internal onboarding process.

## A Record of Success in the DoD Space

### Space Force

- TG Federal supported Space Force to develop the SFCSCO (Space Force Commercial Satellite Communications Office) Business Automation tool Suite utilizing the Salesforce Platform. This new system will replace critical and major businesses process supported today by the legacy DISA systems.

## Navy

---

- TG Federal has been a teaming partner supporting the Financial Improvement and Audit Readiness (FIAR) office. Our team of SAP SME's play a pivotal role in a large-scale SAP transformation initiative, specifically with SAP User Management (UM), Enterprise Change Management (ECM), and Training.

- **FIP MAC III & IV**

TG Federal is currently supporting multiple task orders under the FIP MAC IDIQ. Our team provides program management, supply chain, and inventory reconciliation support to assist Navy with their inventory management. TG Federal's current consultants are SAP trainers, SAP functional SME's and SAP user managers. We currently also provide a handful of SABRE SME's.

TG Federal supports our Prime partner by providing FM System consolidation support, Portfolio Management, and Functional Data Management (FDM). In addition, TG Federal is providing SAP migration support for Navy ERP (enterprise resource planning). Our team is comprised of SAP SME's, FIAR consultants, and both functional and technical consultants who are assisting Navy with its financial audit readiness.

## Army

---

- TG Federal has been a subcontractor on the ALTESS program since 2011. The mission is to provide full life-cycle information technology solutions, support, and services to the customer in secure environments. Today the priorities are Army's Enterprise Data Center (AEDC), Cybersecurity, Onboarding Customers and Applications, and a Hybrid Cloud Mission. ALTESS serves the Army and DoD as an application broker assisting their transition to the commercial cloud or approved hosting facility. TG Federal has team leads on ALTESS who have remained on the contract since 2013. These are Secret and Top Secret cleared Systems Engineers and Cybersecurity resources onsite in Radford, VA and Fort Bragg, NC.
