

Your success is our mission.

TG Federal is an IT subcontractor in the Federal marketplace with more than 20 years of experience providing critical specialized IT talent to Government Contracts across Civilian, Federal Health, SLED, and DoD sectors.

Having the right consultants is only the beginning. As a trusted teaming partner, we go further with an immersive and innovative solution experience within both pre and post award services that ensures all IT project initiatives are fully accomplished; always within scope and on time.

Key Differentiators

 <p>Specialized Delivery</p> <p>Focused within the fields of CyberSaaS Solutions, Cloud, App Dev & Infrastructure, Cyber Security, and Data Management & Analytics</p> <p>At TG Federal, our delivery team is dedicated to networking with the best professionals in the core capabilities they focus on. Our SME-level consultants technically vet each candidate, ensuring we deliver top-quality talent that meets our clients' expectations. Not only do we provide IT professionals who can meet project deliverables, but we also offer cleared and badged resources, helping our clients save costs and streamline their hiring process. By leveraging our expertise in IT talent recruitment and deep connections in the federal markets, we help our clients achieve their goals and drive mission success.</p>	 <p>Incumbent Capture Services</p> <p>Offering Incumbent Capture Services, Key Personnel, Scalability</p> <p>We understand the critical role that key personnel and incumbents play in the success of our clients' pursuits. As a teaming partner, we work tirelessly to help identify and capture the best talent for their win strategy. By leveraging our expertise and industry knowledge, we can help our clients gain a competitive advantage in the market and secure key personnel in advance of a bid.</p>	 <p>Go-To-Market Strategy</p> <p>Works closely with our Prime partners on targeted pursuits</p> <p>We understand the importance of identifying key personnel, which is why we locate and present quality candidates who possess the skills and experience required to help our clients achieve their goals. In addition to this, we provide comprehensive market intelligence that offers valuable insights into the competitive landscape, enabling our clients to stay ahead of the curve. Furthermore, we supply proposal support, including technical and representative resumes, which help our clients stand out from the competition and win more contracts.</p>	 <p>Turn-Key Onboarding</p> <p>Able to onboard resources within 24 hours and deploy them immediately</p> <p>By utilizing our services, our Prime partners can keep their contract staff billable while they complete their internal onboarding process. We understand the importance of maintaining productivity and ensuring smooth transitions for both our partners and their clients. Our team is dedicated to providing efficient solutions to mitigate any potential downtime during these critical periods. With our support, our partners can focus on their core business functions while we handle the logistics of onboarding their contract staff.</p>

A Record of Success

- **VA**

TG Federal was awarded the 5-year, \$974M PTEMS contract at the Department of Veteran Affairs in January 2021. Our team will support the Prime Contractor with delivering Software as a Service (SaaS) and Platform as a Service (PaaS) for Product Delivery Lifecycle Management to help digitally transform the VA using emerging technologies. Our experts will assist with capability delivery lifecycle management, architecture, configuration, enhancement/development, data management, and operations and maintenance.

- **GSA**

TG Federal currently supports the General Services Administration (GSA) through the Office of the Chief Information Officer (OCIO). On the COMET (CIO Modernization and Enterprise Transformation) contract, TG provides services that assist in the operation and modernization of its IT systems. By 2024, we will have assisted in consolidating their systems dramatically, while also migrating fully to the Cloud. By deploying a team of 40+ Solutions Architects, Software Developers, Test Engineers, and Business Analysts, we not only maintain the entire portfolio of applications, but also perform necessary enhancements to improve overall functionality.

- **NSF**

TG Federal has worked on an IT modernization effort at the National Science Foundation (NSF) since 2008. Over the course of the ITSIS (IT Solutions Integration Services) contract, we have deployed 70+ IT consultants to perform a range of services that support their IT systems. Our support has focused on the building, testing, & enhancement of NSF internal/external user applications. Primarily, TG has delivered Database Administrators, Software Developers, Independent Verification & Validation (IV&V) Specialists, Senior-Level Architects, DevOps Engineers, Software Testers, & Project Managers to further this mission.

- **IRS**

More than 170 Goal employees have supported multiple IT modernization initiatives at the IRS over the past 10+ years, specializing in software development, SaaS, Business systems modernization, cybersecurity, and program management support.

IRSM: TG provided the enterprise architecture and integration, and O&M support for a large-scale modernization effort on the Information Returns System Modernization (IRSM) program.

WebApps: TG provided IBM Mainframe, Java Development, and Test Engineering consultants assisting our client with the Web Apps vision to transform the way taxpayers interact with the IRS. TG successfully contributed to creating a self-service, online taxpayer experience.

ACA: Provided 25+ consultants supporting the design, implementation, & maintenance of ACA capabilities. Our consultants assisted with the Architecture, Testing, & Web Enhancements.

CADE2: Supported modernization of IRS's taxpayer systems with 40+ consultants including Java Developers, Systems Analysts, Solutions Architects, & Requirements Analysts

RRP: Provided Solutions Architects, PMO Support, & Business Analysts on the Return Review Program (system of record for individual taxpayer fraud and detection at IRS).

- **HHS**

TG Federal currently supports more than 20 IT contracts within the Federal Healthcare space alone with a large footprint at the CDC, FDA, NIH, and HRSA. The technical areas include Software Development, Applications Development, Cloud implementations, DevOps, SharePoint, Splunk Engineering, Information Assurance, SA&A and Threat Analysis.
