Tria Federal (Tria) is the premier middle-market Technology and Advisory services provider delivering digital transformation solutions to Health, Civilian, and Defense agencies across the federal sector. With a future-forward vision and a mission rooted in service, we bridge capability gaps to help federal agencies work faster, grow

smarter, and stay nimble in the face of change. Tria is the product of three established industry leaders, Federal Advisory Partners (F|A|P), Favor TechConsulting (FTC), and Universal Consulting Services (UCS), that combined in 2023 to form a new powerhouse solving the government's most pressing challenges.

We turn possibility into **capability**

Tria Federal is a premier technology and advisory partner of the federal government. Our best-in-class, multidisciplinary team provides comprehensive, end-to-end IT and business management consulting services throughout the digital transformation lifecycle. We build with integrity and trust by engineering intelligent systems using emerging technologies and solutions applied to their technology and operational challenges.

- Digital Advisory Services**
