

Total Systems Technologies Corporation

Innovate for the Mission Ahead

OASIS+ Contract Holder

The One Acquisition Solution for Integrated Services (OASIS+) Multi-Agency Contract (MAC) is a Best-in-Class (BIC) program for services. The program is designed to address agencies' need for a full range of service requirements that integrated multiple service disciplines and ancillary services/products with the flexibility for commercial and non-commercial requirements, all contract types and pricing determined at the task order level to achieve a total solution. New services may be added to this contract throughout the life of the program.

Why TSTC is your OASIS+ Prime:

TSTC has built its reputation and 20+ years of successful quality focused prime contract performance based on two fundamentals:

- Total Service – Total Commitment®
- Total Solution – Total Compliance®

The foundation of our services is based on our integrated, scalable, and tailorable approaches combined with our encompassing and holistic management philosophies, and highly motivated and skilled staff.

Our support is enhanced and verified by our complementary corporate certifications and achievements. TSTC's services and work products have resulted in our clients receiving awards as well as TSTC receiving customer accolades and multiple Small Business Achievement Awards.

Our people are critical to TSTC's service delivery. TSTC is proud to be a HIRE Vets Platinum awardee and member of the Virginia Value Veterans (V3).

TSTC OASIS+ contracts include the following Domains and NAICS Codes:

Management and Advisory

This Domain includes a full range of management and consulting services that can improve a federal agency's performance, its endeavors to meet mission goals, and provide operating advice and assistance on administrative and management issues.

NAICS Codes

541611, 541612, 541613, 541614, 541618, 541620, 541690, 541990

Technical and Engineering

This Domain includes requirements to provide specific engineering, geoscience, or other technical professional skills, such as those performed by engineers, geologists, geophysicists, and technicians, required to handle specific operating conditions and problems for the benefit of the Government. Work under this Domain typically involves the application of physical laws and principles of engineering in the design, development, and utilization of machines, materials, instruments, processes, and systems; and providing expert advice and assistance on technical functions and issues.

NAICS Codes

336611, 488190, 488999, 541310, 541330 (Exception 1, 2, & 3), 541350, 541360, 541370, 541380, 541611, 541690, 541990, 611512

Intelligence Services

This Domain focuses on Command, Control, Communications, Intelligence, Surveillance, and Reconnaissance mission requirements. Organizational and technological capabilities improve situational awareness and enhance command and control strategies within defense and intelligence environments.

NAICS Codes

541330 (Exception 1, 2, & 3), 541611, 541614, 541618, 541690, 541715, 541715 (Exception 1, 2, & 3), 541720, 541990, 561499, 561611
