Fedstack

Stacked for Scale

Fedstack, the Federal arm of Smoothstack, Inc., offers three tiers of solutions for our clients in support of mission problems, leveraging our breadth and depth of enabling technologies and services.

Tier 1

Consulting Solutions (CS)

Experienced Consultants Accelerating Outcomes

Our clients and Federal Systems Integrator partners have direct access to our Top Talent who are key leaders and contributors to our Centers of Excellence and Innovation Hub. Our consulting leaders collectively bring over 100 years of federal experience, having successfully led major transformational programs and provided strategic consulting for over 25 departments and agencies across the Federal Civil and Defense Sectors.

Tier 2

Talent Scaling Solutions (TSS)

Customized Technical Cohorts at Scale

Since 2018, we have hired, trained, and deployed over 700 high quality resources using our proprietary Six-Stack™ process and Mirrored Environment Immersion (MEI™) training approach within 10-12 weeks. We supported more than 100 digital transformation projects across 10+ federal government agencies, with 99%+ of our resources ready on day one, meeting technical, geographic location and security clearance requirements.

Tier 3

Partner Training Solutions (PTS)

Innovative Upskilling For Your Workforce

We provide tailored upskilling programs for our partners and clients that go beyond certifications. Our premium training services aim to develop a tailored curriculum to meet each organization's exact needs, combining our differentiated proprietary training methods and Learning Management System to deliver the appropriate knowledge and skills to boost workforce effectiveness in a rapidly evolving technology market.

Strategic Alliances & Partnerships

Our growing strategic alliances enable us to solve broader business problems and deliver on our client's missions while leveraging best-in-class technologies.
